

DYNAMITE WRECKS A CAR

Another Outrage Perpetrated by Cleveland Strikers.

Of the Eighteen Passengers Not One Escaped Injury, and Six Are Seriously Hurt—The Report Heard for Miles—Nearby Buildings Damaged—A Second Charge Found Ahead.

CLEVELAND, Ohio, Aug. 30.—Another car of one of the Big Consolidated lines was blown up with dynamite tonight. At 10:30 o'clock a Wilson Avenue car reached the corner of Wilson Avenue and Secor Street, in front of the Ursuline convent, when a terrific explosion occurred. The report was heard for miles. The car was shattered, the rails were torn up and a big hole was made in the ground.

It was undoubtedly a dynamite explosion, and the police believe that the dynamite had been placed on the track by the strikers. A second package of the explosive was found on the tracks a few feet further up the line, evidently placed there with the intention of making sure that an explosion should occur in case the first charge failed to go off.

There were eighteen passengers on the car. All of them were injured, six seriously so. The motorman and conductor of the wrecked car, whose names could not be learned, were also seriously hurt. They were hurled from the car into the street.

The passengers were thrown from the seats and suffered principally from shock and from cuts received from flying glass. Mrs. Schroeder and Mrs. Schulz, two of the seriously injured, are daughters of Dr. W. P. Krause, of 1445 Wilson Avenue, one of the best known physicians in Cleveland.

So far as the police have learned, no one seen near the place for a few minutes before the accident, had acted at all suspiciously. The windows of all the houses for several blocks from the explosion were shattered by the concussion. The convent suffered especially.

A MOB AFTER MACK ADKINS.

Blindly Seized to the Shooting of Bad Fella.

MOREHEAD, Ky., Aug. 30.—Great excitement prevails throughout this section over another battle near the Elliott county line growing out of a bloody fight which occurred yesterday afternoon between Mack Adkins and Bud Fella, in which the latter was fatally shot. Immediately after the shooting Adkins encircled himself in his home, which was at once surrounded by about 100 citizens of the community. During the night a number of Adkins' friends came up to rescue him and another battle ensued. Several of the men were armed with Winchester rifles, while others had shotguns and revolvers. The house was almost riddled with bullets. Adkins was shot twice, once through the groin, while the other shot took almost all of one of his ears off. It is reported that another man, one of those who were standing guard, was badly wounded, but this has not been verified. Adkins is thought to be fatally injured. After he was shot his friends gathered him up and retreated as quietly as they could. Sheriff Farley reached the scene this morning at 8 o'clock, but Adkins and his friends had gone and no arrests were made.

A SISTER'S CRIME.

She Falsely Swore Away Her Brother's Freedom.

GOVERNOR, N. Y., Aug. 30.—Nearly two years ago, in the neighboring village of Naamans, George Young was arrested and sent to State's prison. He was only twenty-two years old, but had the confidence and esteem of his home community. He had been married only a few weeks and was living happily with his bride. Young had a former wife, a sister, Margaret, and she claimed that he had been married to her. On her evidence he was convicted and sentenced to fourteen years' imprisonment. He came out the other day. His wife had disappeared, no one knowing where. Meanwhile the sister had married and had taken up her home elsewhere. A few days ago she was taken ill and, believing her sickness to be much more severe than it really was, sent for her brother. She begged him to forgive her and made a statement in which she said she had sworn falsely against him under the influence of men and had a grudge against him. It is now believed the woman will recover. It is not probable that he will be prosecuted, but every effort will be made to secure sufficient evidence against one of the men whom she says instigated the plot. He is a well-known citizen here. Another man concerned in the plot committed suicide.

Governor Stephens, now at Booneville, reports that Shackford's majority in the district will be 2,700. He has heard from all but two counties. Cooper county has been carried by Voshell. The Republicans concede Shackford's election.

KRUGER MAY YIELD.

American and European Opinion Weighing Upon Him.

LONDON, Aug. 31.—The Cape Town correspondent of the "Times" says there is the strongest feeling throughout South Africa that the announcement of Prime Minister Schreiner, in which he practically said that Cape Colony would observe neutrality in the event of hostilities between Great Britain and the Transvaal, means that he will allow the Orange Free State to mass troops against the British while the Republic's own borders will be secured by the neutrality of Cape Colony.

It is understood that an interchange of views between Great Britain and the Transvaal is proceeding briskly. It is stated that President Kruger shows signs of submitting. Certainly Kruger shows no sign that war is most unlikely. There is evidence that European and American opinion in favor of the reforms asked is having its effect in Pretoria. The "Times" says it believes that Kruger will be almost the last occasion when England will ask President Kruger whether or not he is in earnest in his promises of voluntary concessions.

PRETORIA, Aug. 30.—The Government today considered the reply of Mr. Chamberlain, the British Colonial Secretary, to the latest Boer proposals, which were substantially the granting of a five years' franchise to the Uitlanders, a share in the election of the President of the Republic, and increased representation, probably eight seats, for the gold fields. In his reply Mr. Chamberlain again urged the appointment of a commission of inquiry to effect reforms. He refused to discuss the question of suzerainty, but finally suggested a second conference between President Kruger and Sir Alfred Milner, the British High Commissioner, to be held at Cape Town to arrange for the constitution of an arbitration court to consider and arrange all the outstanding differences.

LONDON, Aug. 30.—Two Transvaal police officers have been arrested at Lorenzo, Marquês. The Portuguese Government has caused a number of arrests to be made at this place recently of persons suspected of trying to smuggle ammunition into the Transvaal.

KILLED CLIMBING THE ALPS.

A Guide Stumbles and Drops Three Other Men Into an Abyss.

ZERMATT, Aug. 30.—Another Alpine accident has occurred near here, resulting in the death of four men. Two Englishmen named Jones and Hill, accompanied by three guides, attempted to climb the famous Dent Blanche, which is 14,300 feet high, and which can only be ascended when the ice is in good condition. They had reached a point within 100 feet of the summit, when the leading guide stumbled and fell into an abyss, dragging with him the two other guides and Jones, who was an amateur climber. All four were instantly killed. Hill, who knew practically nothing of the country, was forty-eight hours in descending the mountain, and making his way back to Zermatt.

He, however, sent salutations and the best wishes of the municipality through his deputy. Admiral Dewey thanked Mr. Archibald for the courtesy shown him, and expressed his best wishes for the future of Nice. The Admiral is looking very well.

INDEPENDENCE FOR CUBA

The President's Proclamation Made Public at Havana.

Autonomists' Efforts for Annexation Anger Separatists—The "Discussion" Attacks Garcia and Govin—Jose Maria Galdes Coming to Washington to Aid the Commission.

HAVANA, Aug. 30.—President McKinley's proclamation addressed to the Cuban people was received by mail this morning and was made public this afternoon by Governor-General Brooke. The document, which is dated August 17, says:

"This disorganized condition of your island, resulting from the war and the absence of any generally organized authority, aside from the temporary military control of the United States has made it necessary that the United States should follow the restoration of order and peaceful industry by giving its assistance and supervision to the successive steps by which you will proceed to the establishment of an effective system of self-government.

"As a preliminary step in the performance of this duty I have directed that a census of the people of Cuba be taken, and have appointed competent and disinterested citizens of Cuba as enumerators and supervisors.

"It is important for the proper arrangement of your new Government that the information sought be fully and accurately given, and I request that by every means in your power you aid the officers appointed in the performance of their duties."

The proclamation was given out too late for the local press to publish it today. Mr. Olmstead, Subdirector of the Census, arrived today and opened a temporary office in the palace.

The separatists are indignant because of the active part the old Cuban autonomists are taking in favor of annexation. The "Discussion" today attacks Marcos Garcia and Antonio Maceo, the two Cuban leaders, a few days ago to urge the annexation of the island by the United States. Nevertheless, the autonomists are determined to secure their object, if possible, and on Friday Jose Maria Galdes, who was chief of the autonomist government in 1898, will sail for New York to meet Senores Govin and Garcia. Ignacio Rodriguez, of Washington, will, it is said, also urge the adoption of the commission's plans.

It is reported here on good authority that the Plant system, Mr. Flager, and the owners of the Tacón Hotel, have joined interests and will build an eight-story steel structure for hotel purposes on the site of the present theatre, retaining that playhouse as it is by building around it. Work will commence this fall. It is estimated that the hotel will cost \$500,000. General Chaffee, General Brooke's chief of staff, is very angry at the "New York Herald" for quoting him in corroboration of its false story from Ghaba about murders by American soldiers. General Chaffee emphatically denies that he ever admitted the "Herald's" story was true in any particular for the reason that when he investigated the reports he found they were absolutely untrue.

AGUINALDO'S NEW ACTIVITY.

The Filipino Leader Musing His Troops for an Attack on Iloilo.

MANILA, Aug. 30.—It is reported that Aguinaldo, the Filipino leader, has ordered the insurgent generals in the province of Cavite to close in on and attempt to take the town of Iloilo. Troops are concentrating around the town from the lake country.

The insurgents, it is further said, have an outpost of 700 men on the Dasmariñas road, and an equal force in the town of Anabo. The Americans are entrenching the town and they have no fear of the insurgents of any attack by the insurgents.

ENGLISH VIEWS ON EXPANSION.

Graceful Comment on President McKinley's Pittsburgh Speech.

LONDON, Aug. 31.—The "Times," in a leader on the Imperial policy in the United States, says that President McKinley's speech at Pittsburgh placed the policy of the American Government on a solid and unassailable basis. It adds: "Once the decision to establish a civilized government in the Philippines is taken, it is not possible to recede from it. We feel that we would be doing wrong to the Americans if we doubted for a moment that they are capable of reaching a solution of the problem which they have to face in the Philippines. They come from a race in whom patience and persistence is inbred. In the end, we believe the United States will have reason to be proud of its new possessions."

OFF FOR MANILA.

The Twenty-Seventh Regiment Gets Away From Camp Meade.

HARRISBURG, Pa., Aug. 30.—The Twenty-seventh Regiment got ready to leave Camp Meade this morning at daylight, but it was 2 o'clock this afternoon before the first section pulled out for the long trip across the continent on the way to the Philippines. The cars were crowded with those who brought the Tenth Pennsylvania home, and it was necessary to give the car-cleaners time in which to do their work. The Twenty-seventh will be carried to San Francisco in five sections, three companies in each section, except the fifth, which carries baggage. Lieutenant Colonel Cummings was in command of the first section, Major Bryant of the second, and Major Hunt of the third.

CASHIER SLOAN LOCATED.

Hard Work, He Claims, Caused a Tanning of His Accounts.

WILMINGTON, N. C., Aug. 30.—The missing cashier of the Wilmington Savings Bank, George Sloan, was heard from today through his wife, and it is very probable that he will soon be located. In a letter to his wife, Cashier Sloan states that the bank work at the bank and lack of assistance, which he had applied for without success had caused him to get his accounts tangled. This, he says, completely unbalanced him and he fled. He earnestly vows in the letter that he has not embezzled a cent of the bank's money. Late tonight, it is stated on good authority, that he is at the Johns Hopkins Hospital in Baltimore.

JOHN DELEGAL INDICTED.

Bills by Wholesale to Be Found Against Negro Rioters.

DAREIN, Ga., Aug. 30.—The grand jury today found an indictment against John Delegal for murder, and reserved decision in the cases of seventy negroes charged with rioting. There is a strong disposition on the part of some jurors to indict the whole batch of rioters for treason, but the probable result will be a wholesale indictment for riot, which means only a few years in the penitentiary. Judge Stubbins has been exerting his influence principally to keep down bad feeling today, and the court publicists are not so rapidly as possible. To the grand jury John Legare, foreman, delivered an impressive and stirring charge, meant for the betterment of relations between the whites and negroes. In part he said:

"In the presence of thoughts and feelings that crowd upon us, inspired by scenes and incidents of recent times, we may be tempted to yield to impulses which are not wholesome and which do not comport with the lofty and exalted office which you at the present moment occupy. As grand jurors in the exercise of your sworn duty, you must lay aside all feeling, all prejudice, give way to no excitement, be cool, impassive, unbiased, hold yourselves erect and give no vent to popular clamor. Do your duty as men fearlessly, honestly, and impartially. Your oath epitomizes your duty. You are to present no one for malice or leave no one unpunished from fear, favor, or affection. I also caution you against intemperate haste; take your time and coolly and deliberately interrogate the evidence that may be adduced before you. Maintain the law and its enforcement in all its purity, and accord each individual the safeguards which he is provided by the constitution and laws of our beloved State."

The negro rioters are surrendering daily, and three more gave up today. A military posse brought them in. Part of Savannah's troops leave tonight for home, and all the negro prisoners will arrive from Savannah jail tomorrow. The two jails here are packed with negro prisoners, and the ones coming will have to be guarded by the police. Twenty men each from Fort Wayne, Liberty, and Screven counties arrived today to re-enforce Colonel Lawton's command, forty from the First Regiment remaining on duty. Colonel Lawton said that the situation is perfectly quiet, and he anticipates no more trouble whatever.

LONGSHOREMEN STRIKE.

Trouble Feared Between White and Colored Dockmen.

NEWPORT NEWS, Va., Aug. 30.—About 200 colored longshoremen engaged in loading and discharging the steamships of the Chesapeake and Ohio fleet went out on a strike this morning. There are between 500 and 600 colored longshoremen engaged in handling import and export freight, and the strike inaugurated this morning affects all of them, as they belong to the Longshoremen's Union of the Chesapeake and Ohio fleet. The fact that the colored men are organized, and the white men, numbering only fifty-three are not, would make the blacks responsible for the whole trouble. The white men have a separate organization, known as the Freight Handlers' and Seamen's Union, and they have persistently tried to get recognition from the longshoremen, but the negroes have prevented them from getting a charter, and have tried to make them join the colored league. This the white men refused to do, and the negroes gave notice that they would quit work unless the white longshoremen joined with them or were thrown out of their neighborhood. The fact of negroes which was needed to unload the Chesapeake and Ohio steamship Kanawha, just in, was not the pier. They found the white men there, also ready to work. The negroes left the pier, and the leaders declared the strike on. They have been concentrating around the town from the lake country. All of the union longshoremen will refuse to "work" the ships, and if any more colored men and white men come in before the strike is settled, the business of the piers may be seriously affected. The white longshoremen had to quit work this morning, as they are not allowed to "work" a ship. Stevedore Jack Mariner, who hires all of the trucks for the Chesapeake and Ohio and Furness, was in New York, where he is on Monday, and he is said that he will return tomorrow morning with 300 or 400 white longshoremen to take the places of the striking negroes. The strike is more than probable that there will be trouble at the piers.

MANY HURT IN A WRECK.

Runaway Cars Crash Into a Passenger Train in New Jersey.

NEW YORK, Aug. 30.—A serious wreck occurred on the Greenwood Lake branch of the Erie Railroad, near Arlington, N. J., this afternoon. It is all down hill from Upper Mount Clair to the Meadows east of Arlington, and when a train near Upper Mount Clair broke in two as it was being backed from a siding to the main track, two cars started down the grade and soon gained a frightful speed. The runaways crashed into the 2 o'clock passenger train from New York, wrecking the engine and baggage and smoking cars, which rolled over and down a bank.

Not a passenger in the smoking car escaped. The train was hurt in the wreck and only the foremost one was scratched. Arthur Newley, of Belleville, a passenger in the smoker, died within a few minutes after the collision. Sixteen were injured, but none will die.

McLEAN'S EASY TRIUMPH

The Ohio Democratic Convention With Him From the Start.

The First Ballot Gives Him One-Half Vote More Than Enough to Nominate Him for Governor—Tumultuous Scenes Followed by a Joining of Hands for Victory at the Polls.

ZANESVILLE, Ohio, Aug. 30.—After a four-hour session of the largest and the most tumultuous Democratic State convention held in the State for the past twenty-five years, the aspirations of John R. McLean have received their first encouragement in a gubernatorial direction.

The platform adopted is lengthy and takes strong grounds against almost everything identified with the work and purpose of the Republican party. A strong bid is made for the colored vote in the denunciation of lynch law, and the labor vote is pleaded by the adoption of the initiative and referendum. The platform favors free coinage at the party ratio, independent of other nations; endorses Bryan as the nominee next year; opposes imperialism, because republicanism and imperialism cannot exist together; opposes entangling alliances with foreign nations; endorses the Spanish war, but demands that the Cubans and Filipinos be en-

to make his nomination a certainty, and it was clinched amid scenes of unprecedented enthusiasm. Col. James Kilbourne stood second in the race, receiving 237 votes, while Seward received 25; Haskell, 55; Sherwood, 22; Rice, 29, and John J. Lentz, who was not a candidate, 5. The convention then took a recess for an hour.
